

Granite Peak Outfitters

Team Sales Commission Plan - effective January 1, 2026

1. What is commissionable

Opportunities marked Closed Won in the CRM, credited to the calendar month of their close date. Quotes, open negotiations and lost opportunities are not commissionable. The CRM amount already excludes tax and freight.

2. Standard plan

Commission is graduated on the rep's cumulative closed-won amount for the calendar month.

Band	Cumulative monthly amount	Rate
1	first \$20,000	3%
2	\$20,000 to \$50,000	5%
3	above \$50,000	8%

Each dollar is paid at the rate of the band it falls in. Deals are taken in close-date order, with the order number breaking a tie, so a deal that crosses a threshold is split across the two bands. Reaching a higher band never re-rates dollars already earned in a lower one.

3. Split deals

When the CRM names two reps as owners of one opportunity, each rep is credited with half of the amount.

4. Refunds

When an order is refunded in whole or in part, the commission paid on the refunded amount is recovered at the rate at which it was paid. Recoveries are deducted from the payout for the month in which the refund is processed. They do not reduce that month's cumulative amount and do not change its bands.

5. Plan changes

Individual plan changes are confirmed in writing by the Director of Sales and apply from the date stated.
